## MESSAGE

**Dr. B. SRIDHAR**

IMA State President

Cell: 94433 26427

E.mail: drsridharima@gmail.com

### Dear friends and respected seniors

President's greetings to you all. It gives me great pleasure to write to you once again.

These are election times and we're going to elect a new government. My only request as already envisaged by our national IMA, is that we should support our doctor members whichever party they belong to since with their presence in the assembly or Parliament we can influence decision making in health care sector. Whatever it's don't forget to cast your vote along with your family.

Recently one hospital in Thanjavur got attacked by the relatives of the dead patient who was terminally sick even as he was admitted. This fact was informed to the family yet they reacted violently. The affected doctor informed IMA and TNGDA. Thanks to the combined efforts, IMA Thanjavur was able to

convince the police to file a case of attack on hospital under Act48/2008. My hearty congratulations to both IMA and TNGDA. The affected doctor spoke to me and I assured him of our support and protection. Three offenders have been remanded to custody.

The best part of this action was that there were as many women members as men who went to the police station to file the complaint

In a southern district we received a complaint that the JDHS was being unreasonable in handling CEA renewal applications. When I asked why the affected doctor (s) is not complaining to the state IMA, I was told they were afraid of the particular JDHS. I was surprised since the town in question has among its members former state level government officials who were very powerful when in office.

Another incident happened in a north district where the JDHS was unduly harsh on a hospital.

In both incidents we're giving you only the superficial information since it's an open journal. IMA state office managed to solve both the issues in its own subtle manner

Why have I discussed the above events? Just to stress the fact that branches should rise

IMA Usilampatti office bearers inviting us to their branch inauguration

above conducting CMEs and start lending a helping hand to the affected member; all the members should come together as one man and shield our member from harassment of any sort- be it the public, press or police. For that we request all the branches to form a Crisis management committee having a mix of young and old from all speciality - private and government. There should be a lawyer with medico legal consultation and reliable available to come to our help. This group should have a separate whatsapp group and any message should be responded immediately to a crisis call. The office bearers will be part of the group.

The state office on its part is forming an Action group at Zonal levels for the same purpose. Each branch will have one senior leader of the branch besides the office bearers. I request the branch office bearers to help your zonal vice president form the committee as early as possible. The local committee will coordinate with the state action committee

We're going to have the next State council

meeting at Arignar Anna ArangamChetpet Chennai on June 14th Sunday (14.06.2026). We request you to plan accordingly. Last SCM at Sathyamangalam was a great success with excellent arrangements by the leaders of IMA Sathyamangalam with great support from the host engineering college. I'm sure that this SCM being organised by four small branches of the extreme north - GAMMPA, Villivakkam Ayanavaram, Ambattur Avadi and Red Hills will also be a great success.

Last but not the least, as a member of IMA Aranthangi, I am grieved by the loss of one of the pillars of that small branch Dr. Premkumar to cardiac arrest. Those who attended TIMACON 25, would not have forgotten his hospitality.

My heartfelt condolences to the bereaved family - I have lost one of my best well wishers

**Long live IMA.**

**- Dr. B. SRIDHAR**  
*IMA State President*

Members are requested to actively promote IMA membership among:

- Colleagues in medical colleges
- Government doctors
- Young practitioners and recent graduates

Let us adopt a simple yet powerful principle:

### Each One Add One

Even a modest individual effort can lead to exponential growth in our strength and representation.

We appeal to all our esteemed members to contribute towards the construction of the new IMA Headquarters building in New Delhi.

Each member is requested to kindly contribute **Rs. 1000 to the IMA Action Fund**, which will be consolidated and handed over to the Headquarters.

Every contribution, however small, carries great significance and reflects our collective commitment to strengthening our association at the national level.

### Support to Doctors in Public Life

At this important juncture, coinciding with the upcoming Tamil Nadu State elections, we extend our heartfelt best wishes to all doctors, particularly IMA members, who are contesting. Irrespective of political affiliations, their participation represents the strength and voice of the medical fraternity. **HOW TO SELECT A POLICY and INSURANCE COMPANY:**

**It all depends upon**

- Your needs Individual or Family, your PED, etc
- Plan your Sum insured depending upon your location like urban, cities, rural, your age, Occupation, Any PEDs, Family history of diseases etc Minimum 5 lakhs to 15 lakhs. Easy thumb rule 50% of your Annual Income.
- Assess the Insurance company you select by Claim settlement ratio if > 95% + their customer service, Ease of claim, Low documentation, app/online process, companies Reputation, Avoid unknown players for major health cover
- Check whether your nearby Hospital is under the Insurers Network or eligible for handling Insurance cases through cashless everywhere even if not a network hospital

**WHAT IS CASHLESS EVERYWHERE?**

- Freedom of Choice: You are no longer restricted to a list of pre-approved network hospitals.
- The insurer settles the medical bills directly with the non-network hospital
- It applies to most hospitals in India with at least 15 beds and valid registration.
- Policy holder gets the right to choose his preferred Doctor, Hospital, for his treatment with cashless.
- Planned Treatment: Inform the insurer at least 48 hours before admission.
- Emergency Situations: Inform the insurer within 48 hours after admission.

**SHOULD ONE RENEW HIS HEALTH INSURANCE AND IF SO HOW OFTEN.**

- Yes one should renew the policy periodically to keep the policy live, maintaining waiting period, to claim no claim bonus, etc, mostly every year for private insurance and for others as per the norms. Some companies have multi year renewal options.

**SHOULD ONE HAVE PERSONAL PRIVATE INSURANCE POLICY EVEN IF HE HAS EMPLOYER / GOVERNMENT SCHEME/ ASSOCIATION HEALTH INSURANCE POLICIES**

- Yes, one should strongly continue personal private health insurance policy
- Employer-provided group insurance vanishes the moment you leave, change jobs, or retire.
- Insufficiency of Coverage: Corporate insurance coverage amounts (sum insured) are often low and might not be enough for major treatments.
- Wait Period & Pre-existing Illnesses: A personal plan maintains continuity. If you lose your job, you may not be able to get a new policy covering pre-existing conditions immediately.
- No-Claim Bonus: Maintaining your own plan builds a No-Claim Bonus (higher coverage without premium increase), which is lost if you rely only on a group plan.
- Customization: Personal plans often have better coverage options

**CAN ONE UTILISE ALL HIS HEALTH INSURANCE POLICIES FOR TREATMENT.**

- Yes, one can utilize multiple health insurance policies for a single treatment to cover costs up to the total bill amount. Must disclose all policies to both insurers, typically using the primary policy (higher sum insured or corporate plan) first, then claiming the balance from the second insurer, often using reimbursement producing all the documents and claim settled details of primary policy.
- One cannot claim more than the total expenses incurred; this is not meant for profit. Exception is IMA Health Schemes where one can claim irrespective of their other claim settlements.
- Ensure the treatment is covered under both policies.

I shall stop here for now, shall come back in next issue with Portability, and other details. Thank you.

The AMS Wing of IMA Tamil Nadu State Branch is proud to present, the AMS North Zone Main Conference, on Sunday, 19 April 2026, at IMA TNSB Headquarters, Tambaram West, Chennai. Organised as a Post-World Health Day Special Initiative, this landmark conference is designed to equip doctors across all specialties with essential skills beyond clinical practice — covering legal protection, financial literacy, emergency preparedness, AI in healthcare, and digital branding.

The event will be conducted in hybrid mode — with over 250 specialists attending onsite and a live webcast on Zoom reaching an expected audience of over 1,000 doctors across India.

**Distinguished Dignitaries :** The conference will be inaugurated by Dr. B. Sridhar — State President, IMA Tamil Nadu State Branch (Chief Guest) and attended by a host of National and State Leaders

**Dual-Track Conference Format :** AMS North Zone Conference titled SMART DOCTOR 2026 is structured as a comprehensive dual-track programme running simultaneously across two halls — a Main Conference Hall for the hybrid plenary and clinical sessions, and a dedicated Skill Lab on the 3rd Floor for hands-on workshops.

**Main Hall — Hybrid AMS Conference (9:30 AM–4:30 PM)**

The main conference sessions cover five thematic segments aligned with the SMART framework:

- Diabetes Decoded — Sponsored Session on newer therapies, insulin updates, and diabetes management

- Oncology & Allergy in Clinical Practice — Multi-specialty clinical updates

- The Great Debate — Oxford-style debate on Empirical Antibiotics, followed by the Grand Emergency Panel covering five specialties

- Ignite Talks, Kahoot Medical Quiz & Valedictory — with cash prizes

Recognising the need for practical skill development among specialists, three sequential hands-on workshops — will be conducted exclusively for registered delegates at 3rd Floor Skill Lab — Three Parallel Hands-On Workshops

**1. CODE LIFE — Emergency Medicine & BLS Simulation with VR (8:00–10:30 am)**

This workshop focuses on Basic Life Support, emergency simulation, and virtual reality-based training for cross-specialty emergency management. Conducted by Dr. Rachula Daniel and Dr. Hari Prasad S.

**2. CTRL+ALT+HEAL — AI in Clinical Practice (10:45 AM–1:15 PM)**

A hands-on masterclass where delegates will actively use AI tools for clinical decision support, diagnostic imaging interpretation, automated documentation, and practice management workflows. Facilitated by Dr. Pranesh Ravi and Dr. Prasanna Venkat Ramesh.

**3. FROM CLINIC TO CLICKS — Digital Branding for Doctors (1:45–4:15 PM)**

In addition to the conference sessions and workshops, this conference will serve as the platform

for launching two significant educational programmes under the AMS Wing:

### **1. DIABERETIMA — Fellowship in Diabetic Retinopathy**

The AMS Wing is launching the DIABERETIMA Fellowship — a structured clinical fellowship programme in diabetic retinopathy diagnosis, screening, and management. ### **Dear Seniors and Colleagues,**

Warm greetings from Private Hospitals & Nursing Home Board. We appeal all the newly built hospitals, nursing homes, scan centres and poly clinics to become a member of Private Hospitals & Nursing Home Board IMATNSB and return into hospital protection scheme. We humbly request all the district co-ordinators, branch presidents and secretaries to pass on the message in local what'sapp groups and motivate new enrolments and renewals of NHB members. Any queries contact Mobile no: 7548825544.

We wholeheartedly thank our state president Dr.B.Sridhar for creating a team consisting of state IMA leaders, HBI chairman, PH & NHB leaders, along with CEO of GIC Dr.S.Prakash. In the initial meeting we had fruitful discussions. Hope in the subsequent meetings we will be trying to reach out their basic packages for the insurances matching with our IMA scientific costing study template.

UPCOMING PROGRAM - Next Northzone Private Hospitals & Nursing Home Board meet will be at Chennai on May 31st along with National HBI meet.

TNEB ISSUE - Recently we received an emerging issue through Cuddalore IMA. Many hospitals in cuddalore districts received notice from TNEB to pay charges for "lavish illumination" for the hospital name boards following their auditing of previous months. We requested the PH & NHB district co-ordinator cuddalore and IMA office bearers of cuddalore to meet the higher officials to sort out the issues.

Recently we received various issues from Thirunelveli members about the laws and regulations suggested by city health officer. With the help of IMA, PH & NHB along with IMA president thirunelveli a cordial situation has been arrived.

We are submitting election manifesto to various political parties. Still we are in requesting position. Hope in future some of our colleagues will come into ordering position in various portfolios. Let us be the policy makers instead of policy shapers.

We have appointed following district co-ordinators for PH & NHB IMA-TNSB

# Why Doctors must be involved in Politics

**Dr. N.R.T.R. THIAGARAJAN**

State President Elect 2027 - IMA TNSB

- An Indian Perspective
- Healthcare in India is not shaped only inside hospitals—it is shaped in Parliament, state assemblies, insurance boards, and regulatory bodies. Every policy decision affects how doctors practice and how patients receive care. If laws and regulations govern medicine, then doctors must help frame them.
- This is not about power. It is about responsibility.

management, and accreditation norms.

- Regulation is essential for patient safety. However, excessive bureaucratic hurdles:

- Increase operational costs
- Discourage young doctors from establishing institutions
- Ultimately raise treatment costs
- Doctors involved in policy making can help create regulations

that maintain standards while ensuring sustainability.

## **Policy Must Reflect Ground Reality:**

India serves over 1.4 billion people with vast disparities in infrastructure, manpower, and funding. Many healthcare policies are drafted without adequate input from practicing clinicians.

## **Doctors understand:**

- Emergency room overload.
- Shortage of specialists in rural areas.
- Delayed referrals and late-stage disease presentation.
- The true cost of running ICUs and operating theatres.
- The difference between ideal guidelines and practical feasibility.
- Without clinical insight, policies risk being well-intentioned but unrealistic.

## **Regulations on Hospitals: Quality vs. Over-Bureaucracy:**

- Starting and running a hospital in India requires multiple licenses and compliance under various laws—municipal, fire safety, pollution control, biomedical waste

## **Violence and Legal Vulnerability:**

- Rising violence against doctors reflects systemic stress in healthcare delivery—overcrowding, unrealistic expectations, and resource shortages.

## **At the same time, doctors face:**

- Litigation under consumer laws
- Criminal negligence allegations
- Defensive medicine driven by fear

## **There is a need for:**

- Stronger protection laws for healthcare workers
- Efficient medical grievance redressal systems
- Clear distinction between complications and negligence
- Only medical professionals can provide balanced insight into such reforms.

## **Insurance Packages Must Be Economically Viable:**

- Government insurance schemes such as Ayushman Bharat Pradhan Mantri Jan Arogya

Yojana have improved access to care for millions. However, package rates often do not reflect the real cost of advanced procedures, ICU care, or complex surgeries.

#### **Unrealistic pricing can:**

- Compromise quality
- Force cross-subsidization
- Make tertiary care unsustainable
- Doctors can provide transparent, data-based costing models to establish standardized and economically viable reimbursement systems.

#### **The Investment Behind a Medical Career:**

##### **Becoming a specialist in India requires:**

- 5.5 years of MBBS
- 3 years of MD/MS
- 2–3 additional years for super-specialization
- This represents more than a decade of intense academic effort, emotional strain, and financial investment. Policy decisions affecting working conditions, compensation, and accountability must acknowledge this commitment.

#### **Managing India's Massive Patient Load:**

- Government hospitals manage overwhelming patient volumes with limited manpower. Advanced cases are often referred late from peripheral centres.

#### **To handle this burden effectively, the system requires:**

- Rational doctor–patient ratios
- Adequate nursing and paramedical staff
- Structured referral networks
- Infrastructure funding
- Digital health records
- Doctors working within the system understand these bottlenecks. Their participation is crucial for rational manpower planning and budget allocation.

#### **Public Health and National Preparedness**

- From infectious disease outbreaks to non-communicable disease epidemics, healthcare planning must be evidence-based. Clinical expertise is vital in designing vaccination drives, triage systems, emergency response plans, and preventive strategies.
- Scientific temper in governance is possible only when doctors are part of decision-making bodies.

#### **Preventing Brain Drain and Protecting Dignity**

- Unsafe work environments, bureaucratic hurdles, litigation fears, and financial pressures are driving many young doctors to consider migration.

#### **Political advocacy can help:**

- Improve workplace safety
- Ensure fair compensation
- Strengthen legal protection
- Restore dignity to the profession

#### **Conclusion:**

- Medicine and politics cannot be separated in India. Every prescription, surgery, and ICU admission is influenced by public policy.
- If doctors remain absent from policy discussions, healthcare decisions will be made without clinical insight. For a country of India's scale and complexity, medical representation in governance is not optional—it is essential.
- Doctors in politics do not seek privilege. They seek practicality, fairness, sustainability, and patient-centered policy.
- Because when those who understand disease and human suffering help shape governance, healthcare becomes stronger—for doctors and for the nation. ●

### Dear Respected Seniors and Friends, Greetings from PPLSSS!

It is a pleasure to connect with each of you through this TIMA newsletter.

It was a privilege to engage with our colleagues recently through two key presentations.

On 17th March 2026, I visited IMA Kancheepuram to discuss "How to respond to a legal notice and the DOs and DON'Ts for a hassle-free medical practice." I would like to thank IMA Kancheepuram for the opportunity and for their proactive support in PPLSSS growth, specifically for handing over five new membership forms during the event.

On 22nd March 2026, I had the opportunity to present "The Medico-legal Landscape and Safe Navigation in General Practice" in Karur, organized by IMA Karur. My heartfelt thanks to Dr.S.Baskar for his excellent coordination. I truly appreciate all members for their purposeful deliberations and active participation.

In this month there were incidents involving closure of scan centers due to alleged lapses in record maintenance. I request all our members to fully understand, aware and follow necessary guidelines with regard to Clinical Establishment act, PCPNDT act to avoid litigations and intervention from Health authorities.

### Key Regulations Governing Medical Records in India

To ensure a safe practice, it is vital to stay updated on the following frameworks:

- Digital Personal Data Protection Act (2023): Specifically designed to protect digital personal health data.
- Information Technology Act (2008) - Sec 43A & 72A: Deals with damages for failure to protect sensitive data and penalties for disclosure in breach of contract.
- Consumer Protection Act (2019): Allows patients to file for compensation due to "deficiency of service," which includes poor record-keeping.

- Bharatiya Nyaya Sanhita - Sec 403: Defines criminal penalties for the dishonest misappropriation of data.

### PPLSSS Monthly Statistics: March 2026

- New Memberships: [69]
- Membership Renewals: [103]
- Total Membership (31.03.2026): [9495]
- Total Cases Received this Month: [13]

### Litigation Updates:
