STATE PRESIDENT MESSAGE

Dr. B. SRIDHAR

IMA State President

Cell: 94433 26427

drsridharima@gmail.com

Dear friends and respected seniors

It gives me great pleasure to write to you one more time. Every wing and scheme of IMA is working to the maximum. CGP and AMS are doing an extraordinary job. Their online programs are drawing delegates in thousands. FSS is doing well keeping the number above 9000 and working every muscle and nerve to add more. Paramedical students have crossed 2500 and their exams are over only last week. We're doing everything to safeguard their interest. For the sake of our academic wings and paramedical, we're forming an Academic Board of experts so that all courses will be standardised and monitored by an expert panel. PPLSSS is helping our members face litigations with confidence and our panel of lawyers are doing a great job.

But on the other side our members are facing a lot of hardship through extra judicial settlement issues and harassment by the social media. Matters get worse when ruling party politicians are involved in the arbitration.

There's an element of non cooperation from the police, who sometimes are reluctant to step in and provide protection. Occasionally their officers are themselves insist on out of court settlement. Your IMA has taken upon itself in a big way to put an end to all these things. We've written from the state office to main officials in the state, our minister, health secretary and police top brass to come out with

a standard guidelines coordinating police with health department to provide protection to the affected members and to prevent extra judicial settlement. If at all they insist on compensation, it should be through court only. Now we've come to you the branch leaders to approach your district taluk officials and present a memorandum on our behalf addressed to the chief secretary and containing a condensed message of what we have sent from the state office. This is the second step. I request each and every branch should take it upon itself the onerous responsibility of doing this without fail.

Now to the third and final step. If we don't get proper response to our letters we're approaching the high court for orders to the government to form such guidelines. We'll not take rest until we achieve this.

We're having our annual general body and state council meeting at Tirunelveli on 5th and 6th of September. I request you all to attend without fail and have your voice heard.

Also the annual conference for this year is in December when Dr. Ravi Kumar will take over as the next state president. I want you all to come for that event also.

Long live IMA

- Dr. B. SRIDHAR

Academic Update | AUGUST 2026

Strengthening General Practice Through Meaningful Academic Engagement

Dear Colleagues,

Warm greetings from the **College of General Practitioners (CGP), IMA Tamil Nadu State Branch**.

The month of August has been another significant milestone in the academic journey of CGP IMA TNSB. With our fellowship programmes progressing steadily and our CME activities reaching doctors across the state, CGP continues its commitment to delivering **practical, relevant and clinically oriented medical education** for General Practitioners.

A major highlight of this month was the successful conduct of the **IMA TNSB CGP East Zone Conference**, hosted by the **IMA Pattukottai Branch**.

IMA TNSB CGP EAST ZONE CONFERENCE A Day of Learning, Interaction & Clinical Updates

The **East Zone Conference – Hybrid Mode** was conducted on **9 August 2026** at **Sri Palaniyappa Thevar Mahal, Pattukottai**, hosted by the **IMA Pattukottai Branch**. The conference brought together doctors from Pattukottai and the surrounding regions for a comprehensive academic programme covering several important areas of day-to-day clinical practice.

The conference was inaugurated by **Dr. B. Sridhar, State President, IMA TNSB**, in the presence of senior state leaders including **Dr. M. Thiraviam Mohan, Hony. State Secretary**; **Dr. P. Senguttuvan, Immediate Past State President**; **Dr. A.K. Ravikumar, State President Elect 2026**; **Dr. N.R.T.R. Thiagarajan, State President Elect 2027**; and **Dr. D. Solomon Jeya, Hony. State Finance Secretary**.

The academic programme commenced with sessions addressing **renal replacement therapy and preparation for dialysis, imaging in percutaneous intervention, early intervention and management in critical care, medicolegal remedies for doctors and practical approaches to hypertension**.

The post-inauguration sessions continued with equally relevant topics including **fertility decline in rural Tamil Nadu, oxygen therapy and financial guidance for doctors**, followed by a lunch interaction.

The afternoon programme focused on **practice pearls in neurology, pre-conceptional counselling, newer approaches to clinical care and evaluation of breast lumps**, making the conference particularly relevant to the broad spectrum of problems encountered in everyday practice.

Special Appreciation to IMA Pattukottai Branch

5	Passed	1762
6	Exam Centres	35
7	Passing Percentage	95.55%
Supplementary exam will be conducted to the failed/absentees shortly.		

Till now, there are about 27 new Hospitals come forward to start paramedical courses under IMA TNSB Paramedical Wing for the academic year 2026-27.

Our Paramedical Secretary Dr. N. Rajkumar has attended the Doctors Day celebration at Nagercoil on 11th July 2026. He also inspected Jay Jay Hospital in Tirupur and submitted report.

The existing Hospitals conducting Paramedical Courses under IMA TNSB Paramedical Wing are requested to renew their accreditations if it is due for renewal. No hospital is allowed to conduct the courses without proper approval of IMA TNSB Paramedical Wing.

The IMA Paramedical Programme was conceived with a clear social and professional objective. At a time when hospitals face an increasing shortage of trained nursing assistants and allied healthcare personnel, the programme aims to create a pool of skilled healthcare workers who can effectively support patient care and hospital services. More importantly, this initiative was started to provide an

opportunity for students from economically weaker sections, who may not have the means to pursue higher professional education, to acquire practical healthcare skills, secure employment, and earn a respectable livelihood.

The Purpose of the Courses are to address the shortage of trained allied healthcare personnel, to provide hands-on practical training relevant to day-to-day hospital work, to support the functioning of small and medium-sized hospitals, to create employment opportunities for deserving students and to develop disciplined, ethical, and patient-oriented healthcare assistants.

The following points are to be strictly followed by the Hospital conducting Paramedical Courses under IMA TNSB Paramedical Wing: These courses are not Government-recognized qualifications and do not confer eligibility for registration in any statutory council or for Government employment. Since these are non-recognized skill-development courses, member hospitals are requested to maintain utmost responsibility in publicity and avoid advertisements outside the hospital campus, Cable TV advertisements, Newspaper advertisements, Social media promotional campaigns, Bulk SMS, WhatsApp. or other mass marketing messages, any publicity that may create an impression of Government recognition. Admissions should primarily be through local awareness and direct enquiries at the hospital level.

Fee Structure: The fee structure fixed by IMA Tamil Nadu State Branch shall be followed uniformly by all institutions. No excess fee shall be collected under any circumstances. As per the **84th Annual General Body Meeting Resolutions – Point No. 5** - the maximum fee that can be collected per year per student for the courses conducted in our paramedical wing is ₹ 20,000 plus the exam fee of ₹ 2000 per year per student. The number of seats that can be given per course per institution is to be one third of their bed strength (either alone or combined with another hospital) as per the clinical establishment act certificate.

Member hospitals are requested to provide maximum practical exposure. Ensure adequate bedside training. Teach patient care with compassion and ethics. Maintain discipline and attendance. Focus on skill development rather than classroom theory alone. The objective is not merely to issue certificates but to produce competent healthcare assistants who can confidently work in hospitals and contribute meaningfully to patient care.

The IMA Paramedical Programme is a service-oriented initiative and not a commercial venture. Its strength lies in ethical conduct, affordability, quality practical training, and employment generation. Let us preserve the original vision of this programme by ensuring that every student who joins receives genuine training, acquires useful skills, and becomes a valuable member of the healthcare workforce.

“Train with sincerity, serve with compassion, and create opportunities for those who need them most.” ●

BLOOD donation

World Blood Donor Day
14th June 2026

National Blood Donor Day
1st October 2026

The Official Slogan for the **World Blood Donor Day 2026** is **“One Drop of Humanity. Give Blood. Save Lives”**. World Blood Donor Day 2026 was celebrated globally on June 14th 2026. This year, **Italy** hosted the official global event in **Rome**.

The WBDD is celebrated every year on the day of Birth Day of KARL LANDSTEINER (Birth Date - 14th July 1868), a great scientist who won the Nobel Prize for his great discovery of the A,B,O blood group system.

The World Health Organisation, The International Federation of Red Cross and Red Crescent Societies initiated and established to celebrate WBDD annually on 14th June in the year 2004. WHO officially established WBDD with its 192 members states in 2005 at the 58th world health assembly to motivate all the countries worldwide to thank the blood donors.

Our National Blood Donation Day is celebrated in India on October 1st. It was first started in the year 1975, through the Indian Society of Blood Transfusion and Immunohematology (Estd. 22.10.1971 under the leadership of Mrs.K.Swaroop Krishan and Dr.J.G.Jolly).

WHO CAN DONATE BLOOD?

Age between 19 and 65yrs. Weight above 45 kgs. Pulse rate, body temperature and blood pressure should be normal. Both men and women can donate, men once in 3 months and women once in 4 months. HB level must be above 12 mgs present. 300 to 350ml blood is collected. Some places 450ml is collected.

Permanently excluded: Donor with history of epilepsy, psychotic disorders, abnormal bleeding tendencies, severe asthma, cardio vascular disorders, malignancy are permanently unfit for blood donation. Donors suffering from disease like hepatitis, malaria, measles, mumps and syphilis may donate blood after full recovery with six months gap. Also, people have undergone surgery, blood transfusion may safely donate blood after six to twelve months. For women donors who are pregnant or lactating, blood is not taken as their iron reserves are already on the lower side.

The World Health Organization has recommended the following four tests for the donated blood:

1. Hepatitis B Surface Antigen, 2. Antibody to Hepatitis C, 3. Antibody to HIV, usually subtypes 1 and 2 and 4. Serologic test for Syphilis.

Now a day's whole blood is not given except in needy situations. Separated

Past State President, IMA TNSB -2010, Past State President, Tamil Nadu Ophthalmic Association -2009-2010, Past Chairman, IMA Standing Committee for Blood Donation, IMA H.Q and IMA TNSB, Secretary, IMAYAM Free Home for terminally ill Cancer patients, (Run by Erode IMA Branch). Advisor, Organ and Blood Donation Committee, IMA TNSB -2025 and 2026.

constitutions only are given to the patients. The longest shelf life used for platelets is seven days.

Red Blood Cells have shelf life of 35 – 42 days. Plasma can be stored frozen for an extended period of time and expiration date can be given as one year.

Apheresis: This was introduced in 1972. This is separation of only desired component from the donor and returns the remaining constituent back to donor.

Madras Medical College Blood bank was started in 1949. It is the largest blood bank in country. In our State, Coimbatore IMA Branch, Udumalpet IMABranch, Sathyamangalam IMA Branch and Tirupur IMA Branches are running blood banks. Erode IMA Branch in collaboration with Supreme Lions Blood Bank Trust utilizing the Past Blood Donation Committee Chairman, IMA TNSB, Dr.Chitra Soundararajan's services.

Our IMA TNSB is giving awards to the IMA Branches during the Annual Medical Conference every year - Maximum No of Blood Donation Camps – 1st, 2nd&3rd; Maximum No of Units Collected – 1st, 2nd& 3rd; Maximum No of IMA Members Donated Blood – 1st, 2nd& 3rd IMA head Quarters is giving an award for a branch collecting maximum no of units of blood in that year.

When we think of Blood Donation, we remember two things about our former Chief Minister Thiru.M.G.R. He used to address in the meetings as “RaththaththinRaththangale” because many people donated blood for him when he was admitted in MMC hospital in 1967. Next when Thiru.M.G.R. movies are released, blood banks in Madras used to get more donors. At that time there were paying donors only. They will get 15 Rupees and go for the movie. In Stanley Medical College we started Blood Donors Club in 1976 and students started voluntary blood donation. I was in charge of it till I was the President of Stanley Medical College Students Union (1979-1980) and then voluntary blood donation picked

up well in the State. I started donating blood from 1976 till 2023 scientifically every 3 months without break for 192 times. We remember Mr.Rajasekar from Chennai who donated 187 times. In the beginning he used to donate every month and switched to every 3 months by the advice of blood bank medical officers. We had to stop after the age of 66.

I have given only the basic points.

Dr. V. Rajesh Babu, Chairman, Organ and Blood Donation Committee, IMA TNSB -2025 and 2026 is very much enthusiastic and conducting regular Zoom Meeting of the committee on the last Tuesday of every month from 3-5PM for the past 15 months. We request our members to utilize the extensive talks by our professors about Blood Donation.

I thank our State President, State Secretary and State Office Bearers for their encouragement in Organ and Blood Donation activities. Thanks to NHB Chairman and Secretary for entrusting me to write the article. ●
